Schedule 1 information to be Collected for ABS Particulars of the proposal

DESCRIPTION		
	Gross site area (m <sup>2</sup> )	
	Gross floor area of new building (m <sup>2</sup> )	
	Number of storey's	

**Notes for completing Complying Development Certificate Application**

*Note 1* The following information must be provided with this application

- A site plan of the land
- Detailed plan of the development
- Detailed description of the development
- Building work plans and specifications
- A list of any existing fire safety measures provided in relation to the land or any existing building on the land
- A list of the proposed fire safety measures to be provided in relation to the land or any building on the land as a consequence of the building.
- Copies of any compliance certificates to be relied on
- A long service levy to construct the building (unless the cost of construction is less than \$25,000)\*

\* It is noted that a long services levy is payable irrespective of whether or not the development is undertaken by or behalf of the crown. However, for a crown development, the levy is payable by the person(s) who has entered into a contract with the Crown to erect the building. The Crown itself is not required to pay the levy.

Commerce (Office of Public Works and Services), as project manager, is only required to ensure the contractor pays the levy. As a practical solution it is proposed that Commerce include this requirement as a contract condition and that documentary evidence of payment of the levy be subsequently provided to Commerce.
